

Data Retention Policy

Introduction & Purpose

The retention policy lays down the length of time which the record needs to be retained and the action, which should be taken when it is of no further administrative use.

Members of staff are expected to manage their current record keeping systems using the retention policy schedule and to take account of the different kinds of retention periods when they are creating new record keeping systems.

The retention policy refers to all information, regardless of the media in which they are stored. However the retention of period set on the ICT/Media Backup will be in addition to the period(s) described in other sections of this policy.

What to do with records once they have reached the end of their administrative life

Destruction of Records

Where records have been identified for destruction, they should be disposed of in an appropriate way. All records containing personal information, or sensitive policy information should be shredded before disposal.

Transfer of records to the Archives

Where records have been identified as being worthy of permanent preservation, arrangements should be made to transfer the records to Archives.

Transfer of information to other media

Where lengthy retention periods have been allocated to records, members of staff may wish to consider converting paper records to other media such as digital media. The lifespan of the media and the ability to migrate data where necessary should always be considered. Records transferred to media must be transferred in accordance with the Data Protection Policy and ICT System Acceptable Use Policy & Agreement.

Governors

Basic file description	Data Protection Issues	Statutory Provisions	Retention Period (operational)	Action at the end of the administrative life of the record	
Minutes – Principal Set (signed)	No		Permanent	Retain on premises for 6 years from date of meeting	Transfer to Archives
Minutes – Inspection Copies	No		Date of Meeting + 3 years	DESTROY
