

**TEACHER SUBJECT SPECIALISM TRAINING IN PHYSICS  
NOVEMBER 2018 – MARCH 2019  
BITTERNE PARK TEACHING SCHOOL**

Following previous successful and oversubscribed training programmes in the past two academic years, Bitterne Park School is offering free, fully funded Subject Specialism Training in Physics running from November 2018 to March 2019.

Sessions will run from 3.15pm – 5.00pm, with one all-day session from 9.00am – 3.00pm.

This course is ideal for teachers, especially NQTs and RQTs, looking to enhance their subject knowledge of physics for continuing professional development and possible career enhancement.

Our training programme is delivered by an experienced physics lead teacher, and includes:

- ✓ helpful face-to-face training sessions
- ✓ links with professional organisations
- ✓ online training
- ✓ gap tasks
- ✓ resources and lesson ideas

The programme is aimed at teachers who are:

- ✓ currently teaching physics as a non-specialist
- ✓ currently teaching other subjects but would like to teach physics in the future
- ✓ a specialist teacher of physics, planning to return to teaching after a career break
- ✓ NQTs or RQTs who feel they could benefit from improving their physics subject knowledge in order to more confidently and effectively teach KS3 science and GCSE combined science.

Please could you pass this information to anyone who you know who may be interested. There is also a PDF attached for you to circulate.

Please ask potential applicants to email [teaching.schools@bitterneparkschool.org.uk](mailto:teaching.schools@bitterneparkschool.org.uk) for more information and an application form. Details of training dates/times are shown on the attached PDF.

Kind regards
